

# H.Chair

# SPACE

H.Chair is the new comfortable and wrap-around chair by Christophe Pillet, consisting of a light tubular structure in chromed metal, on which lays a synthetic core. The functionality and comfort of the continuous design of the body, a soft curved shell that faithfully follows the human profile, make this project suitable for different uses, from a dining chair to a small easy chair for the living area. Available in leather and eco-leather.
